

Miniature Bevel-Up Jack Plane

05P82.26

This plane is a scaled down version of the Veritas Low-Angle Jack Plane. The body is stainless steel that has been precision machined and ground. The plane features a working Norris-style adjuster.

Blade Adjustment

Should the blade adjustment mechanism ever get out of the proper configuration, reposition the parts as shown at right.

Blade Sharpening

The 0.060" thick by 0.74" wide A2 tool steel blade has the bevel ground at a 25° angle.

Note: A corrosion-inhibiting paperboard chip is included in the case. It will provide continuous corrosion protection for up to two years.

Accessory
